T7. EVIDENCE-INFORMED DECISION-MAKING (EIDM) IN DAY-TO-DAY PRACTICE

Created for the CanMEDS Teaching and Assessment Tools Guide by S Glover Takahashi. Reproduced with permission of the Royal College.

Physicians are expected to integrate best available evidence into their practice. This small group exercise is designed to get you thinking about strategies that you could use to identify, select and navigate pre-appraised resources.

Completed by: _______________________________________

Date: _______________________________________________

1. Take a moment on your own and reflect on your experiences over the past few months to generate a short list of information that you needed or a question that you had when making a clinical decision.

1. _______________________________________________

2. _______________________________________________

3. _______________________________________________

2. Could the information/questions be answered by looking in a pre-appraised resource? If yes, what resource? Where did/could you find it?

1. _______________________________________________

2. _______________________________________________

3. _______________________________________________
T7. EVIDENCE-INFORMED DECISION-MAKING (EIDM) IN DAY-TO-DAY PRACTICE (continued)

3. Compare your answers to Questions 1 and 2 with your colleagues. Note the differences and similarities.

___________________________________________________________________________

___________________________________________________________________________

4. Take a moment and identify up to three pieces of information or questions that, in your experience, couldn’t be answered by a pre-appraised source. What was your solution?

___________________________________________________________________________

___________________________________________________________________________

5. Choose one of the situations you identified in question 1 or 3 and complete the table (i.e. via self report OR ask a faculty member to fill it out for you).

<table>
<thead>
<tr>
<th>1</th>
<th>2</th>
<th>3</th>
<th>4</th>
<th>5</th>
<th>Not Applicable</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unacceptably</td>
<td>Poorly</td>
<td>Competently</td>
<td>Very well</td>
<td>Superbly</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>I was able to:</th>
<th>Rate your approach IN THIS SITUATION. Illustrate and explain rating</th>
<th>Areas or ideas for improvement?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Identify an evidence question</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Develop a search strategy</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Collect, extract and synthesize evidence</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Interpret and adapt evidence</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Plan to implement and evaluate</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

6. Based on this exercise, summarize briefly any high-level lessons that you took away from this exercise. What, if any, longer term implications did you identify that you could incorporate into your lifelong learning?
